NUMBOTS & TT ROCKSTARS

Dear Parents & Carers,

At John Clifford School, we are committed to increasing children's confidence in math's, and learning core number facts is part of that process. I am writing to you to highlight the online math's packages that we use in school and you can also use with your child at home.

Numbots.com and **TTRockstars.com** are provided for the school by Math's Circle. Your child may wish to use either or both of them, depending on confidence, understanding and the advice of the class teacher. If you have not yet logged in with your child at home, I would encourage you to do so. We are often asked, 'how can I support my child at home?' for which Numbots and TT Rockstars are ideal if you have internet access and a suitable device. Apps are available for both packages or you can just log onto the website.

	Numbots.com	Recommended ages 5-7	Core counting and addition and subtraction facts
	TTRockstars.com	Recommended ages 7-11	Times tables – multiplication and division facts

Video introductions for both sites are available on YouTube:

Numbots: [NumBots: Addition and Subtraction Solved - YouTube](#)

TT Rockstars: [What is Times Tables Rock Stars? Parents and Carers Guide - YouTube](#)

Your child will have their login details in their reading diary on the Math's page near the start. New children joining the school will have these details provided in their first week. Please contact me or your child's class teacher if you do not have these details, or if you require any further information.

Children can be chosen as Star of the Week for their work on Numbots on TT Rock Stars.

Thank you for your support.

Mr J. Morris

Math's Leader
